NOTES

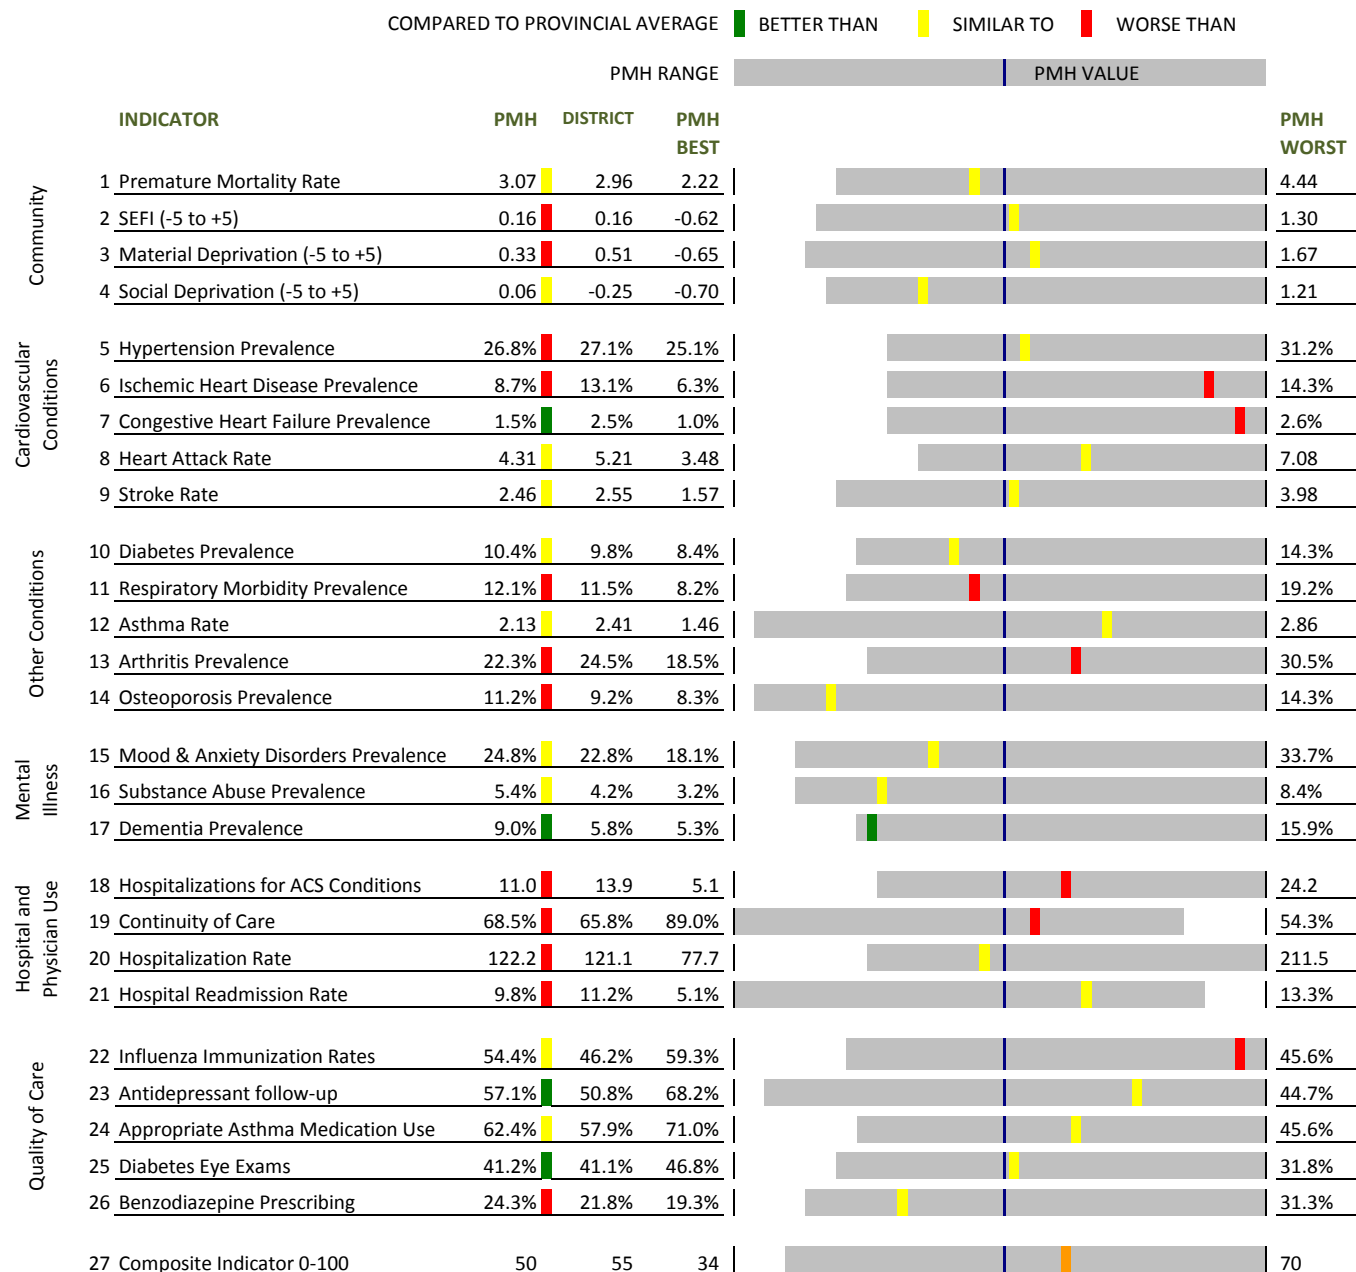

¹ Manitoba Health Population Reports, 2013 ² Manitoba Centre for Health Policy RHA Indicators Atlas, 2013 ³ 2011 Census. Statistics Canada did not publish any area information where Global Non-response (GNR) was 50% or higher.

Riding Mountain had a GNR of 52.9%. Unable to publish the Census data due to the low response rate in Riding Mountain. Responses to the Census are critical for planning!

DISTRICT PROFILE INDICATORS

RIDING MOUNTAIN

The chart below shows how the health of the people in this district compares with the rest of Prairie Mountain Health. The districts result for each indicator is shown as a vertical bar. The PMH rate is shown as a blue vertical bar at the centre of the chart. The range of results for all of PMH is shown as the grey shaded area. The colour of the horizontal bar for both the district and PMH values indicates whether the value is significantly lower (green), significantly higher (red) or not significantly different (yellow) to the Provincial average.
